

I am a very happy XM customer. The programming offered by XM is superior to anything I can get locally. I would expect this because I pay for it. XM is not forcing their programming on me. The benefits of having access to weather and traffic when I travel is great. There are areas where I can not receive a broadcast station and the weather stations on XM keep me up to date on serious weather. If XM was not worth it I would not be paying for it. Please reject NAB's petition 04-160. XM continues to get better. Their programming is outstanding. It should not be up to the NAB to dictate what I cannot listen too, especially when I am paying for the service.
